

VISION, MISSION & VALUES

Vision

To be the **E**nergy **I**nfrastructure **M**anagement Company that customers prefer.

Mission

Through our values and sustainable business practices, we provide tailored solutions for the asset management of gas transmission infrastructure to our customers, focusing on the delivery of:

- Safety, environmental and regulatory compliance
- Operations and maintenance
- Specialist pipeline services.

Values

Safety	We commit to safe work practices ensuring the wellbeing of our people, community and stakeholders.
Environment	We are committed to a sustainable future by delivering environmentally responsible work practices.
Integrity	We commit to accountable and ethical behaviour in our business practices.
Efficiency	We commit to improving efficiency in process, time and resources through innovative solutions and team work.
Respect	We commit to demonstrating respectful practices to the community, our stakeholders and each other.
