

ENVIRONMENTAL

EIM is a specialist company that offers a fully integrated gas transmission service, through the design, development and provision of pipeline services encompassing pipeline engineering, inspections, operations and maintenance of gas transmission infrastructure.

Our Commitment

EIM is a company which operates by using sustainable environmental practices. We strive to minimise our impact on the environment in the delivery of our pipeline services. EIM management and staff are committed to minimising the environmental impact of activities undertaken during the course of our operations

In order to adhere to the provisions of this policy, and ensure continuous improvement to enhance our environmental performance, EIM will maintain certification to ISO14001 Environmental Management Systems. EIM will ensure that all relevant legislative and statutory requirements and advisory standards, required to operate in the petroleum and gas industry, are met.

EIM's Environmental policy is available to stakeholders and the public.

Our Objectives

We achieve sustainable environmental practices through delivering our services by:

- Implementing an effective environmental management plan
- Monitoring the environment at each stage of operation and assess in advance the potential environmental impacts of all EIM activities
- Ensuring protection of native flora and fauna throughout its operations
- Engaging in pollution prevention practices
- Educating & training our people to continually improve awareness, skills & knowledge of environmental issues & practices
- Cooperating and communicating with contractors, consultants and the broader community in the development of environmental strategies so that these programs are relevant, feasible, scientifically sound and economically viable
- Measure and review environmental performance to ensure compliance and to identify opportunities for continual improvement
- Reviewing our policy every 1 year.
